🛑 TimeoutTrack: Privacy Policy

Last updated and effective: April 3, 2022
This Privacy Policy applies to the Discord bot: TimeoutTrack#2203

Data Storage

TimeoutTrack does not store any Discord data by default. TimeoutTrack stores the following Discord data provided in the **/setup** command:
- **Server ID:** This is stored to link the saved data to your server and provide functionality.
- **Channel ID:** This is the channel you want logs regarding timeouts to be sent.
- **Role IDs:** These are the roles (up to 3) you want to be considered "mod" and can modify the settings of the bot.

When setting up automatic DM preferences after a timeout has been made, no additional Discord data is stored.

Contact Me

If you need support or to contact me, you can ping me, Daniel▓#7205, in the support server.

Removing Data

You can remove all saved data by running the **/view_setup** command and pressing the Clear Setup Data button.

Thanks for using TimeoutTrack!
